

**Nature NB - Species at Risk (Coastal guardians - 5 jobs)**  
**Starts : May 23, 2011**

Nature NB - Species at Risk is seeking coastal guardians for summer 2011. Coastal guardians will be ask to:

- protect Piping Plovers nesting sites by the installation of symbolic fencing
- participate to environmental education of the public by installing interpretative panels for Piping Plover protection as well as for dune protection (Marram grass)
- participate to various wildlife surveys
- make different kiosk in various special events
- be part of a new initiative of our program, the Chimney swift protection

*Requirements:*

- currently attends a college or university and plans on continuing in September of 2011
- owning a valid driver's licence and having access to a vehicle (office situated in Tracadie-Sheila, but the job requires regular traveling in all the Acadian Peninsula)

*Qualifications:*

- has an interest in nature and its conservation
- enjoys working outdoors (even in unexpected meteorological conditions)
- the ability of working in groups
- the ideal candidate for this position will have a background in biology, natural sciences, environmental science or education. Other fields could be considered if student brings positive assets to our organisation.

Nature NB - Species at Risk offers you a fulfilling and educative outdoor working experience within a nice and dynamic team. You'll have the chance to discover the richness of the Acadian Peninsula coastal ecosystem.
